We offer you the facilities of test plots of the newest Peach, Apple and Sweet Cherry varieties. Our orchards are of great help in enabling us to know the problems of the growers. We test under orchard conditions many new varieties and determine their value before we offer them for sale. We are small growers and because of this we keep in close touch with all operations. This, we believe, gives our customers a great advantage.

If you prefer, we do custom budding from trees of your choice without extra cost to you.

# APPLE

## STATEMENT OF INSPECTION FOR TRUENESS-TO-NAME

July 19, 1960  
Amherst, Mass.

### TO WHOM IT MAY CONCERN:

All salable apple, pear and plum varieties propagated and now growing at Boyers Nursery & Orchards, Biglerville, Pennsylvania have been examined by the Massachusetts Trueness-to-name Inspection Service. To the best of our knowledge these trees are true to name as they now stand in the nursery row.

Massachusetts Trueness-to-name  
Inspection Service

---

## GUARANTEE

We guarantee to furnish healthy, vigorous, well-grown trees or plants. We cannot be responsible for continued growth after stock has been planted on grower's premises because such factors as faulty planting, poor soil conditions, lack of moisture, etc., are beyond our control.

Great care is used to avoid mistakes. In case any trees or plants prove to be untrue to the name under which they are sold, upon proper proof the original order will be replaced or the amount actually paid for such stock at the time of purchase will be refunded. The purchaser agrees to accept the stock on these terms.

As we are centrally located, we suggest, if possible, you call for your order to prevent delays caused in shipping.
